2020-2022

RELEVANT EXPERIENCE

AI Research and Development

Digital Resource & Transformation Hub | Innovation Campus (WSU) — January 13 – June 9

- UI/UX Design Lead and AI Research Developer at WSU's Digital Research and Transformation Hub (TIE), co-leading the AI Research & Development team. Played a key role in designing and developing the chatbot for Wichita State University. Currently leading the coding and design teams for a dashboard and chatbot project for the City of Wichita, collaborating with city officials through regular leadership and planning meetings to deliver impactful, user-focused solutions.

Digital Personal Shopper

Walmart — July 15 – August 2024

- Worked at Goddard Walmart Supercenter as a (DSA) Digital Personal Shopper. My main job was to maintain the digital aspect of a customer's online shopping list and its quality. Making sure every customer gets their online order right in time and will maintain its quality.

COMBINATION TECHNICIAN IN PLANT OPERATIONS

Haviland Broadband — April 2024 – June 2024

- This is a full-time job I am doing this summer. It is a full-time job. My main task is to maintain techs on the customer end, install a new fiber connection, and take out old copper internet.

TECH INTERN

Barclay College — August 2023 – December 2023

- Completed a tech internship at Barclay College during an Information and Network Technology program at Pratt Community College.
- Responsibilities included customer service, student and professor tech support, network management, and lab computer administration.

PRODUCTION ASSISTANT

Barclay College — August 2021 – April 2022

- Managed live production for chapel services, including digital soundboards, lighting, and streaming.
- Served as sound engineer for Mary Poppins, Newsies, All Together Now, and The Show Goes Wrong.
- Directed sound, lighting, and graphics for a concert at Barclay College.
- Skilled in Logic Pro, DaVinci Resolve, Adobe Premiere Pro, and Final Cut Pro for audio/video editing.
- Experienced with Adobe Lightroom and Photoshop for photo editing.
- Handled live broadcasts for basketball, volleyball, and soccer.
- Familiar with Yamaha CL3 soundboard, Dante audio networking, ETC lighting systems, OBS, and ProPresenter 7.

TECH INTERNSHIP

Riverside Friends Church, Mason City, Iowa — May 15 – July 10, 2021

- Developed and launched a new website for Riverside Friends Church: riversidefriendschurch.com
- Enhanced production quality by optimizing sound, lighting, and streaming services for the church.

RELEVANT PROJECTS

AI ChatBot build

Mindshare.com   August 2024 – Ongoing

- I am developing a custom chatbot for the Mindshare.com website, aimed at enhancing customer service. This chatbot will be designed to handle inquiries related to the content and services offered by Mindshare.The project involves utilizing ChatGPT , along with training the model using a custom API to ensure the chatbot effectively understands and responds to customer questions with accurate and relevant information.

HomeLab

My HomeLab   August 2022 – Ongoing

- I maintain a small home lab where I experiment with various server operating systems, switch OS, and Linux distributions. Additionally, I work with Windows Server and diverse hardware setups. My homelab serves as a hands-on environment for practicing and enhancing my cybersecurity skills, allowing me to stay current with the latest developments in the field.

CHURCH VIDEO PRODUCTION

Messenger Church   March 2024 – April 2024

- Produced an about video and website banner video for Messenger Church using Lumix S5 camera, Dji Ronin SC gimbal stabilizer, Dji Drone Mini 3, and DaVinci Resolve.
- Created cinematic video content for the church.
- Video Link: Messenger Church

WEBSITE BUILD

Northridge Friends Church   December 2023 – January 2024
&   &
Rose-Hill Friends Church   July 2023 – August 2023

- Contracted to rebuild the Northridge Friends Church website using WordPress.
- Location: Wichita, KS
- Website: Northridge Friends Church
- Contracted to build the Rose-Hill Friends Church website using Wix.
- Location: Rose-Hill, KS
- Website: Rose-Hill Friends Church

CODE EDITOR & WEBSITE UPDATE

Mindshare.com   August 2021 – January 2022
                                                    August 2021 – January 2022

- Improved a section of the software at Mindshare.com, focusing on XML programming language.
- Website: Mindshare.com
- Software Link: Download Here
- Worked on updating a section of the Mindshare.com website for a private company.
- Website: Mindshare.com

WICHITA, KS

TO WHOM IT MAY CONCERN,

I am writing to express my strong interest in contributing my expertise in cybersecurity, server management, and networking to your esteemed organization. With a diverse background that bridges both media production and information technology, I bring a unique perspective and a solid technical foundation to the table.

My journey in tech began with hands-on experience in live sound, lighting, videography, and media coordination — skills I developed through roles at a local theatre and church. These experiences sharpened my ability to adapt, collaborate, and deliver high-quality results in dynamic environments. Simultaneously, my academic path led me to pursue Information and Network Technology at Pratt Community College and later cybersecurity studies at Wichita State University, where I have been able to deepen my technical knowledge in network infrastructure and security systems.

Currently, I serve as the team co-leader of the AI Workflow Research Team and the UI/UX design lead for the Chatbot Project at the Digital Research and Transformation Hub (DRTH) on the Wichita State University Innovation Campus. These leadership roles have allowed me to work collaboratively on cutting-edge solutions, enhance user experience through design thinking, and contribute to impactful digital initiatives.
I am driven by a commitment to excellence, integrity, and innovation. My passion for technology — paired with hands-on experience in both media and IT — positions me as a well-rounded candidate eager to take on new challenges in a focused and forward-thinking role within your company.

I would welcome the opportunity to discuss how my skills and experience align with your team's needs and how I can contribute to your organization's continued success. Thank you for considering my application.

SINCERELY,

Steve Adhikari
